DON'T TAKE A VACATION FROM HIGHWAY SAFETY

A member of the Maine Highway Safety Committee, and secretary-treasurer of Local 340, Teamsters Union had some words of advice for vacationers.

Al Page of Auburn said that truck drivers throughout the State have observed certain faults with vacationists—faults which often lead to traffic accidents.

"Many drivers on vacation," said Page, "forget that the rest of the cars on the road are being operated by people who are not on vacation."

Therefore, the driver who is vacationing tends to forget that other people are carrying on their everyday activities," Page noted that many drivers going on vacation will not be prepared for the unusual high-speed driving of super highways. He was quick to point out that truck drivers have observed that many drivers on vacation seem to be oblivious of other traffic around them. Page said that the Maine Highway Safety Committee urges drivers to keep up to the speed of traffic.

Don't invite people to pass in dangerous areas, or invite them to tailgate. "Remember," said Page, "the driving comes in between the vacation—you're never on vacation when you're behind the wheel."

Mrs. Herman Mason of West Bethel, who was admitted to St. Louis Hospital, Berlin, N. H., July 25, following a fall, has improved and will probably be there another week.

Mr. and Mrs. Frank Benson and Miss Sharon Benson spent the week end with Mr. and Mrs. Victor Sarré Amston Lake, Conn. Miss Benson remained for a longer visit.

Word was received here Sunday of the death of Mrs. George Holt (Mary Manning) of North Waterford. Mr. and Mrs. Holt at one time were residents of Bethel. Mrs. Holt was the aunt of Kathryn Ramsell, Bethel, and Mrs. Elwyn Street, North Portland.

Chosen volunteers from Maine counties are attending the Seaside and Wood Festival at Bangor Fair this week. The contest is sponsored by Bangor Extension Service. Mrs. June Hess of Bethel is Oxford County's delegate.

LETTER TO THE EDITOR

August 2, 1965
 To the Editor of the
 Bethel Citizen,

The Sam McCoy letters in your column are never unprovocative. In the series that he wrote your several months ago, about the cost of transferring the children from the Gilead School to the Crescent Park School, he stirred up a host of respondents, most of whom, if my recollection does not fail me, disagreed with him. He is always interesting, a stalwart champion of his economic and political philosophy, and obviously never speechless. I am certain that many of your readers will welcome his re-entry onto the epistolary battlefields, via your "letters to the editor" columns, as indeed, I do most heartily.

Several weeks ago I wrote you a simple letter, suggesting that the Town of Bethel may not be ready to assume the responsibilities of a college town two years hence. Mr. McCoy in his reply has involved me as follows:

1. In foreign affairs—"and like our State Department talks with the Russians, his (my) comments are 'useful'." (Quote from his letter.)
 2. In economic theory—"The surest if slower law of supply and demand, the spark plug of the free enterprise system..." (Quote from his letter.)
 3. Crime in New York City—"He (I) is apprehensive of rude remarks, or possibly a switch blade attack, with which he (I) may have had some personal experience at another time, in another place." (Quote from his letter.) I am sure that Mr. McCoy will be relieved to know that I have had no such dire experience at any time, at any place.

4. The shortcomings of brands of merchandise with well recognized labels—"Like the labels on so many brands nowadays instant success gets to be misleading." (Quote from his letter.) Among the well known labels enumerated by him are "Wellington," "Lee," "B. Altman" and "Rogers, Peet & Co."
 5. The police power, taxation, the Sheriff's Department, State and Town Constabulary and for good measure "a county attorney who just loves to get convictions when they are justified." (See last paragraph Letter to Editor—Sam McCoy, issue of July 28, 1965). They all get into the act somehow.

One would comb my letter in vain for a trace of any of these unrelated subjects, except that I did point out that the Town might need more than one Constable to curb the ebullient spirits of the teenage students. It is apparent that Mr. McCoy has an appealingly dedicated observance about this complacency of social phenomena. The "labels faire" rogues of economic thinking that he cherishes is as extinct as the dodo. As for "the free enterprise system," I didn't question its validity, nor did I mention it even implicitly in my recent letter to your paper. I don't doubt the ability of the police to maintain order.

I am reminded of the speech made in the ancient Roman Senate about two thousand years ago, by one of its members, at the height of the rivalry between Carthage and Rome. This Senator ended all his speeches on foreign or domestic affairs, regardless of their content and applicability with three words: "Carthago delenda est," meaning Carthage must be destroyed. Sam McCoy's letters similarly breathe fire and brimstone within the framework of his pet economic and political petes even if in-

20 SECONDS WITH THE NAZARENE

There is a formation known as Angel Rock on the eastern slope of the San Jacinto Mountain Range in California. Viewed from the plain below, these stones take the form of a great angel above the city of Palm Springs. Someone has pointed out that Angel Rock can best be seen from a point on highway 99 known as Windy Corners. Gale-like winds from the ocean whip through this narrow pass.

It is so in life oftentimes. Most of us are no strangers at Windy Corners. Yet when the winds blow the hardest we can look up and get our clearest view of the overarching providence of God.

43rd INFANTRY DIVISION SENIOR CITIZENS REUNION

The 19th annual reunion of the 43rd Infantry Division Veterans' Association will be held at the Hotel Viking, Newport, Rhode Island, on 10-11-12 September 1965.

applicable when he airs them.
 Despite the fact that "... Their fiscal responsibility is akin to a run on the bank," (quote from his letter) it would be a blessing to the community to enlist his obvious talents in the amelioration of problems that abound in Bethel and everywhere else in the country. Housing, the ever-present problems of teenagers, employment, education, industry, health, family life and many others could benefit from the application of civic leadership. Bethel is not unique in this respect. Its progress will depend on the quality of its leadership, which we know has produced significant results in recent years, witness the two ski areas, the new bridge, additions to the Gould campus, new homes, restaurants, shopping centers, a new fire house, an enlarged post office, improved streets and roads, an airport etc. Perhaps Mr. McCoy could be induced to wet his reluctant feet with a small dose of community planning. I predict that he'll enjoy the experience.

May I confess that I am now thoroughly convinced that I can purchase a pair of socks in Bethel. My humblest apologies to Brown's Variety Store, Rosie's Specialty Shop and any other merchant who unknown to me, may carry them. However, Mr. McCoy was astute enough to recognize that socks were not the burden of my letter. He states the problem succinctly and lucidly as follows:
 "As I read it Mr. Cymrot suggests in a roundabout way that some sort of planning agency be organized to cope with college-caused economic and police problems soon to engulf Bethel."

He is quite right about my suggestions for planning. However his suggested solution will solve nothing. During the past week end there were about four hundred or more people in town—N. T. L. attendants and their families, plus pipe line workers and their's. The facilities of the town were obviously stretched to the breaking point. It was patently obvious that the situation was trying to the visitors and to the Bethel natives. The descent of four or five hundred

college students, teachers, administrators, supervisors and their families on the Town of Bethel for protracted stays (two or three weeks) is apt to prove catastrophic unless long-range plans are now begun to receive them. Not a single word in Sam McCoy's letter to you has disproved this statement. His reliance on the good law of supply and demand plus the free enterprise system to cure this impending problem is akin to giving one an aspirin tablet to alleviate a feverish and persistent ailment. And, I don't understand the relationship between the admitted problems and his suggested cure. Doing nothing will obviously achieve nothing.

That Bethel is not now ready to become a college town is readily admitted by many of its citizens. A few however, and Sam McCoy seems to be among them, believe that if the Town of Bethel does nothing and does all plans nothing... planners scare me (him) half to death," quote from Mr. McCoy's letter). The Town will be a derelict, like Alice in Wonderland, fit into its new snugly like a bug in a rug. Such miscalculations may be permissible to an individual. They are indefensible to a governmental unit that is responsible for the well being of its inhabitants. Let's face it—Can the Town of Bethel afford not to plan for the implementation of this significant event?

Finally, since Mr. McCoy has shown solicitude about my safety and well-being, may I assure him that I do feel safer and happier here. However I have to further assure him that the over all well being and contentment are not based on the absence of switch blade knives. The beauty of the country, the peace and quiet, the absence of tension, the daily supply of fresh fruits and vegetables from nearby farms, the friendliness of many of our neighbors embracing air, the delightful tasks and many other reasons both spiritual and material, tangible and intangible, are the basis of our continued well-being and contentment in Bethel. We are truly grateful for the blessing afforded us by this Town. Mr. McCoy is fortunate, indeed, that he can enjoy these advantages the year round, while to expatriates freely on the economic and political scene.

Sincerely yours,
 Mark E. Cymrot
